

## MEMO

To: Armerita Tell  
From: Kelly Riley  
Date: February 21, 2000  
Subject: Northeast Mississippi Community College Letters

The office received sixteen signed letters with return addresses and twenty-seven signed "statements of concern" from constituents in northeast Mississippi concerning the proposed budget cuts at Northeast Mississippi Community College. Norman obtained the Governor's approval (document attached) on a form letter response to these constituents, which we sent to the sixteen constituents for whom we had return addresses. I spoke to Marilyn Kent at the college's training center in order to determine if we could obtain addresses for the twenty-seven "statements of concern," but she did not have this informatio. She thinks that one of the local employers probably developed the letter and had his/her employees sign it and send it in, but we have no way of identifying this employer.

This case is closed.
